1. Claims 7-9 are allowable over the prior art of record.
2. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 1, 2, and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On line 2 of independent claim 1, it is unclear which noun on that line is paired with the newly-added word "operable." That is to say, is the "altimeter" the device that is "operable to determine ..." or is it the "barometric pressure sensor that is "operable to determine ..."?

The newly-added language on lines 7-9 of claim 1 is indefinite and unclear in that it recites functionality without claiming any structure to accomplish the functionality. That is to say, no structure is claimed to accomplish the accounting for "any dynamic changes of the altitude" as recited on lines 7-9 of claim 1.

Dependent claims 2 and 6 are unclear in that they depend from unclear independent claim 1.

4. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
5. Claims 2 and 6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
